The Baptist Association.

Tuesday A. M. the writer of this, with other Ukiah folks, returned from Fort Bragg where we had been attending the Clear Lake Baptist Association which convened there the fourth of this month. Leaving here Tuesday A. M. the second day of the month, we were favored with a continuous down pour of rain all day which converted the dust into mud and made the first day's travel rather slow. After enjoying the accommodations of Hotel de Wright the first night out, we reached the "Half Way House" for breakfast and hauled up in front of the Baptist church in Fort Bragg in due time Wednesday evening where we were received by Rev. R. T. Gray, former pastor at Ukiah, and were at once assigned to our homes for the coming days we were to remain. That night the first service of the series was held, at which Deacon Weller gave the address of welcome, which was responded to by the writer. Thursday A. M. the formal organization of the body took place with our aged and esteemed brother, Rev. Ross of Caspar as Moderator, and Rev. Maguire of Willits, Clerk. There were more than fifty messengers in attendance from the various Baptist churches of Lake and Mendocino counties, besides some visitors, among whom were Rev's. Gaston of Santa Rosa, Ward of Pasadena and Whittaker of Oakland. The sessions throughout were harmonious and profitable, and Rev. R. T. Gray and family, with the help of all the Baptists and many other good people of Fort Bragg made the stay and entertainment of the messengers and visitors one continuous pleasure. The loving hospitalities shown us all by the good people of Fort Bragg will be remembered with gratitude in the days to come. The next Association will be held with the Baptist church of Ukiah, October 1901.

I forgot to say that some of the lady messengers from Ukiah took their first ride on an ocean steamer while there. The messengers from Ukiah, were Flossie Vaughan, Laurie Finney, Susie Gibson, Mrs. Asa Smith, Mrs. McCorquodale and the writer. A resolution introduced by Flossie Vaughan, recommending that we endorse the movement, and that we labor and vote for the Amendment to exempt all houses of worship from taxation, was unanimously adopted by the Association. It was also ordered that the portraits of "Uncle" John Todd, Rev. Ross, and the late Reverends, Haycock and M. W. Howard appear in the minutes of this conference.

In all my peregrinations I have never traveled through so interesting and impressive country as that between here and Mendocino City One continuous feast of mind through the eye. Mountains, canyons and forestry surpassing in grandeur, beauty and magnificence, the entire distance, any other highway I have ever traversed. It would seem as if the survey of the road had been made with a view of entertainment to travelers. The road bed for the entire distance is the best I ever saw through a mountainous country, and the grading is indicative of a good knowledge of civil engineering. It is well worth the time of a busy man to make the trip from here to Fort Bragg if only for the comfort and pleasure of travel on a good road; but the scenic topography in its indescribable grandeur will create a desire to repeat the trip.

JOE WALDROP.

EVENTS OF THE WEEK.

Important Occurrences of the Past Seven Days.

Summary of What has Just Occurred. Accidents and Incidents.

The annual fair of the Twelfth District opened last evening with a very creditable display—exceedingly creditable under the circumstances. The Pavillion is filled—has just the right amount—and if the weather had continued pleasant it would have been crowded. Very few exhibits have come from a distance, but Scotts valley, Upper Lake and Bachelor valley have made an exceedingly fine showing, while Lakeport and Big valley have done their part in good shape,

The display will compare very favorably with any ever exhibited in the District—or elsewhere. Some of the products are remarkably fine and there is not a really inferior exhibit in the Pavillion. Several exhibitors have fitted up very attractive booths, to inspect any one of which is worth the price of admission.

The stock exhibit is good but the rain has necessitated the scattering of the animals in order to secure requisite shelter. Some are at each of the livery stables and some at Maje Whitton's private barn.—Lakeport Press.

Discount Bank to Be Dissolved.

Senator J. H. Seawell, visited Mendocino last week as attorney for the stockholders of the Mendocino Discount Bank in their action to dissolve the Bank. The deposits and indebtedness have all been paid. The stock amounting to $68700 has depreciated in value, but will pay 70 cents on the $1.00. Seawell & Pemberton filed an application Tuesday to dissolve the Bank, the case being set for Nov. 19th.

M. E. Church, South, Conference.

The Annual Conference of the M. E. Church, South, which met in Oakland last week, concluded its work Monday. The appointments of Pastors for the ensuing year, were in part as follows:

Rev. C. B. Riddick is again Presiding Elder of this District. Rev. W. F. Coffin returns to Ukiah for the year. E. H. McWhorter goes to Alameda. W. M. Armstrong remains at Yorkville and Boonville; Potter Valley, C. E. Clark; Upper Lake, C. F. Clark; Laksport, Wm. Acton; Laytonville and Round Valley are to be snpplied. Rev. John Harnnon, who served the church at Ukiah acceptably a few years ago is transferred to Virginia.

"Sapho."

Ukiah was favored Thursday night with an excellent presentation of Daudet's celebrated play, "Sapho," which has attracted so much attention in the leading cities of the world. The company was greeted by a good house, and, with the facilities at hand, they did remarkably well. Miss Lemmert in the leading role showed herself to be an actress of rare emotional powers and the support was all that could be desired. Mr. Saunders, the lessee of the opera house deserves the thanks of Ukiah's play goers for bringing such companies to this city.

ASYLUM AFFAIRS.

The "Push" Put it all Over the "Press Gang."

The long looked for "settlement" of the Asylum controversy took place in San Francisco last Saturday week and the "verdict" made known at last Saturday's meeting in this city. As was stated in last week's DISPATCH, the board sustained Dr. King in discharging M. M. Carothers, the chief engineer, holding that there should be a head to the institution and that while Dr. King held that position he should receive the support of the board. It was reported that the vote to sustain King was 4 to 1.

When the Board met in session Dr. M. Gardiner was elected President, vice A. W. Foster, resigned. This meeting was also the one set for hearing the counter charges made against Supt. King by Attorney Thomas Lassitude Carothers, the father of his son. But to the surprise of all Lassitude failed to put in an appearance, sending in instead a sensational communication to the effect that he would not be present to prosecute his charges as the case had already been prejudged for political reasons. The document then reiterated the charges against King and Secretary Handy, all of which Big Tom said he could prove if he had an unbiased jury into whose ears he could pour his tale of woe.

After a full discussion of the charges made against Dr. King, the board resolved to investigate the matter in their own way and time.

The prevailing sentiment seems to be in favor of Dr. King in this disagreeable scandal, the wide publicity of which has undoubtedly injured the institution.

Of course Max Carothers in his fight had the sympathy of a great many people, but he is unfortunate in being the son of a father whose "gray matter" is not in proportion to his avoirdupois. The people of the entire community thot that Carothers' charges were the result of a revengeful piqued nature. They knew Tom had been a Director of the Asylum for years, had always upheld Dr. King and did uphold him until this late unpleasantness; and it was even reported that when Tom was an applicant for Director he announced that the main reason he was after the position there was to hold his good and competent friend, Dr. E. W. King, in as Medical Supt. So when these matters came up and Big Tom made an unsophisticated jackass of himself, the board, while having nothing against Max, thot that the efficiency of the institution demanded harmony among the officers of the institution, hence the result. So Big Tom and the Press, whose withering influence casts a blight on all whom it seeks to favor, are the direct causes of Max's losing his position. This is a severe lesson to young Carothers, who will undoubtedly in future, see that no carbuncles and barnacles are hanging around his person to "hoodoo" him in all his undertakings.

The entire community wish Max success in his new field; and while they would have preferred to have him stay and let Tom go, they wish him good luck and prosperity.

Political Speaking

The people of this community should turn out in mass next Wednesday evening to hear Hon. James F. Farraher, the democratic nominee for Congress, and ex-Congressman Hon. Barclay Henley.

Marshal De Merritt shut the engine house door one evening this week, when two bricks fell out striking him on the head cutting quite a severe gash.

CHAMP CLARK'S LETTER

G. O. P. Marked For a Tremendous Trouncing.

MARK CAN'T GET THE BOODLE

Prominent Republicans Deserting McKinley.

TEDDY AROUSES NO ENTHUSIASM.

Several Republican Congressmen In Iowa In Danger of Defeat—Signs Indicate That Hanna Is to Be Made the Scapegoat of McKinley's Defeat—Democratic Outlook In Indiana—Zach Chandler's Scheme Revived—A Republican Editor's Confession—Bryan's Reply to Hanna's Challenge.

[Special Washington Letter.]

Surely the G. O. P. is headed for the deuce and marked for the most astounding trouncing any party ever received at the hands of a long suffering and outraged people. Mark can't get his usual amount of boodle! Teddy can't arouse any enthusiasm! And the chairman of the Iowa Republican state committee sends out a Macedonian cry to the postmasters and other federal papsuckers declaring that several Republican congressmen in Iowa are in great danger of defeat! There has been no such mournful set as the Republicans are since the children of Israel hung their harps on the willows and sat down by the waters of Babylon and wept. Amazing Republican losses in Vermont! Surprising Republican losses in Maine! Desertions of prominent Republicans everywhere is the sickening message which Mark is compelled to send to his disheartened followers.

"Pity the sorrows of a poor old man," appears to be Mark's appeal to the plutocrats. Calamities are crowding upon him so thick that one might sympathize with him if McHannaism were not the bane of our free government. It is written, "If thy right hand offend thee, cut it off."

So it is infinitely better that Mark should go in humiliation to his political grave than that the republic should perish.

Having Fun With Hanna.

They are playing cruel pranks with Mark these days. Some scientist out in Indiana, without the fear of Hanna before his eyes, but animated by a waggish, perhaps patriotic, spirit, got hold of one of Mark's paid spellbinders, hypnotized him and caused him to deliver a rousing Democratic speech! Since Mark has unexpectedly blossomed out as an orator he had better steer clear of that artist, or first thing he knows he will himself be whooping it up for Bryan, 16 to 1 and all. How all this must pester Mark, and yet nobody appears to be shedding any tears over his troubles. Even Republicans are beginning to complain of him and to despitefully use him. My lecture mate—one of them—Hon. Charles B. Landis of Delphi, Ind., thought it a winning card to induce Mark to orate in his town. Guess Charles did that with an eye to persuading Mark to give him some of the sinews of war. Mark invaded Delphi, orated, and now comes Governor Mount, who says that bringing Mark into Hoosierdom was a blunder which a famous Frenchman on a momentous occasion declared to be worse than a crime. Governor Mount's declaration is the "most unkindest" cut of all and must have caused the iron to enter Mark's soul. Signs are accumulating that Mark is to be made the scapegoat for McKinley's impending defeat. He will share the lamentable fate of one Jay Hubbell—Garfield's "Dear Hubbell"—who sandbagged and held up the government officials and who was then thrown away like a sucked orange—disgraced, execrated, loathed. When McKinley is beaten, as he will be, all of the sins of all the Republicans will be loaded on to Mark's back, and he will be hated more enthusiastically and more universally than any other man in America.

A Job's Comforter.

Even The Globe-Democrat, a thick and thin Republican organ grinder, has become a sort of Job's comforter for Mark and, speaking of West Virginia, says, "The outlook is not so hopeful as the campaign Republican managers had hoped it would be." Again, The Globe-Democrat says, "The party lieutenants in the field say that hard work will be necessary for the salvation of the state." Again, The Globe-Democrat continues dolefully, "The result of the reports from West Virginia will be the immediate bracing up of the Republican campaign in that state." Which means, I take it, that Senator Stephen B. Elkins will import a few more carloads of the colored man and brother into the state and colonize them for fraudulent election purposes. Again, The Globe-Democrat remarks, "Literature and speakers will be supplied, and the voters throughout the state will be awakened to a sense of the danger which seems to confront the party." No doubt The Globe-Democrat has made a correct diagnosis of the disease afflicting the G. O. P. in West Virginia, but it has prescribed the wrong remedy. What those sleepy or recalcitrant West Virginia Republicans need to resuscitate them is not literature and speakers, but some of Mark's boodle. All this would make Mark's hair stand on end like quills upon the fretful porcupine if he had any hair, which he has not.

And the papers report that the very Old Harry is to pay in the gas belt in Indiana, where Mark expended his gas. The trusts have been getting in their work in that region, shutting down factories, throwing people out of employment and causing untold misery. And the simple Hoosiers are so unreasonable as to conclude that 2 and 2 make 4 and are beginning to talk of holding the Republican party responsible for the calamities which the trusts have brought upon them. The prospects are that those benighted Hoosiers who are opposed to being robbed in broad daylight will turn the state over to Bryan.

Mark got his comb cut in another way and from an unexpected quarter. In his Delphi speech, in his swaggering, offensive, truculent way, he said that he was ready to debate imperialism with Bryan or any other Democrat. That sounded very brave in Mark, and no doubt his defiance was received by the Indiana Republicans with applause. But now comes Bryan, who declines to debate with Mark, but goes after higher game, proposing to debate with McKinley, a thing greatly desired by all good Democrats.

Trouble In Iowa.

Some weeks ago in one of these letters I stated that in my judgment the Democrats of Iowa would redeem two congressional districts this fall. At once sundry Republican papers jumped on me and said I was talking through my hat. It would appear after all that I had some reason for that declaration and that the aforesaid Republican editors were engaged in speaking through their tiles when they were bullyragging me. Hon. H. O. Weaver, chairman of the Iowa Republican state committee, is sending out to all Republican postmasters a letter which he marks "very important" and which runs as follows:

I forward to you today package of literature which is the first installment of campaign documents that will be sent you from now until the day of election. I trust you will place them in hands of parties where they will do the most good.

I also desire to call your attention to the matter of your voluntary contribution to the campaign fund, as I observe from the records that you have not as yet responded to my request for aid in the work being done. You can see from the documents that pass through your office the character of the work being done and which can be completed only by increased work, energy and expense. The Democrats are flooding the state with literature and speakers and have raised a campaign fund much larger than we can hope for. They are mapping out a campaign in Iowa which has alarmed our congressional nominees in the districts which they deemed comparatively safe. Upon you and your associates rests the serious personal responsibility of insuring your congressional nominee a re-election. Don't throw this aside, but answer at once.

Claiming Everything.

Republican leaders are following Zach Chandler's plan when he was fixing to steal the presidency for Hayes—i. e., they are claiming everything. They are even idiots enough to claim Missouri. They have about as much chance to carry Missouri as Democrats have to carry Pennsylvania. I have frequently referred to the Washington Post as the most ably edited independent paper in America. Here is its deliberate judgment on the situation:

If the Republicans read the signs of the times aright, if they fully appreciate the importance of recent political developments, they must begin to recognize the fact that the coming presidential election will be no one sided affair and that Mr. McKinley's triumph in November is anything but a foregone conclusion. There is a warning to the party in the Republican losses and Democratic gains in Vermont. A similar increase in the Democratic vote throughout the country will give several doubtful states to Mr. Bryan. But more significant than the election in Vermont is the return to the Democratic party of such men as ex-Secretary of State Olney and ex-Postmaster General Wilson, two of the ablest and most conspicuous members of Mr. Cleveland's last cabinet, who now openly espouse Mr. Bryan. With such examples as these in high quarters the Republicans may as well prepare to lose the Cleveland vote which was so largely recorded for sound money in 1896. Prominent exceptions are to be found, of course, but it is nevertheless an obvious truth that the great majority of gold Democrats—influential men who supported Palmer and Buckner or voted for Mr. McKinley four years ago—are now in line with their party. Possibly they are taking this step chiefly because of a desire to see their party rehabilitated for 1904 and without any confidence in immediate success, but whatever the motives that prompt them, whatever their hopes and ambitions, their defection will count heavily in November against the party in power.

The campaign, though not fairly under way, has already demonstrated that our Philippine policy is to be a big if not the overshadowing issue of this campaign. The Republicans must meet it unevasively. They cannot dodge it if they would. Moreover, the labor situation promises to make the vote of the workingman much more uncertain and less easily controlled than it was in 1896.

Eight years ago, at this stage of the presidential campaign, the outlook for Republican success was every bit as auspicious as it is today, but Mr Harrison, whose administration was a model in all respects and who was and is one of the greatest Americans of his day, went down to defeat the worst beaten Republican candidate of modern times.

The Republican managers cannot afford to overlook this lesson of history at the opening of the present fight.

Favors a Monarchy.

While most of the imperialists beat about the bush and haven't the courage to draw the inevitable conclusion deducible from their premises, it is refreshing to find one of the piratical gang who has the courage of his convictions and who honestly declares in favor of a monarchy. Mr. K. Chavanness, editor of the Des Moines Globe, a most ardent supporter of McKinley and Roosevelt, was recently interviewed by a staff correspondent of the Omaha World-Herald with this astounding result:

"Do you really favor a constitutional monarchy as the government for this country, Mr. Chavanness?"

"I most assuredly do. Why, what is the difference between a constitutional monarchy and the kind of a government we have now? Who is paying any attention to the constitution? We are governing Porto Rico outside of the constitution, governing the Philippines outside of the constitution, and what's the matter with governing the whole thing the same way—that is, outside of the written constitution?"

"Do you think the tendency of the administration's policy is in the direction of the government you advocate?"

"To be sure it is. Government, my dear sir, is founded on property and commerce. We can boast of civil rights and all that, but government after all is founded upon property. Men acquire property and then demand a government that will protect them in their property rights. A constitutional monarchy does this and at the same time enables men to acquire property without sentimental interference."

"Do you advocate the election of McKinley and Roosevelt?"

"I do earnestly and honestly."

"Do you advocate their election because you believe that their success is a step in the direction of achieving what you believe to be the proper thing in government?"

"I do. Why should Republicans be afraid to admit it? They may deceive themselves, but they deceive no one else when they pooh-pooh at imperialism. I am a Republican, and The Globe is a Republican newspaper."

An open confession being good for the soul, I suppose this Des Moines Republican feels much better for having declared himself openly.

It will be remembered by those interested in politics that four years ago the Republicans were suspected and accused of desiring the single gold standard. They declared it to be a false and monstrous charge, maintaining that they were bimetallists—the only true bimetallists—in fact, they were the real thing and we the base imitation. Then they passed a law placing us upon the single gold standard. Now, in this matter of suspected monarchial bee buzzing in the bonnet of William the Uncertain, we, in the language of Patrick Henry, have "no light by which our feet are guided save by the lamp of experience." But in this matter of the kingly aspirations of our own "Imperial Bill" the majority of Republicans deny the soft impeachment in but a half hearted way, while some, like this Des Moines editor, declare openly for the kingdom.

Think of it! If they would pass a gold standard bill after all the vehement denials and the tall lying of 1896, they will give us "a king by divine right" in six months after another victory at the polls.

A Brainy Democrat.

Democrats everywhere will be glad to know that the Democrats of the Austin district of Texas have renominated Hon. T. S. Burleson for congress. He is a most excellent and promising young Democrat, with brains in his head and reliable as Cæsar's Tenth legion. I serve on the same committee with Burleson—the great committee on foreign affairs—and know that he is as faithful to his principles and his people as is the needle to the pole. The Austin district acts with great good sense. It will have none but a first class man and Democrat to represent it. For years that stalwart statesman Joseph D. Sayres, now governor of Texas, represented the capital district of the Lone Star State. When he quit voluntarily, Burleson succeeded him, and Burleson maintains the prestige of the district.

Surely the Philippine war is being conducted on a most peculiar plan. We are offering $30 apiece for every gun surrendered, but nevertheless Captain D. H. Allen reports that in all the province of Batangas, containing 200,000 people, not a gun, old or new, good, bad or indifferent, has been voluntarily given up.

Bryan's Brightest.

Of all the good things that Bryan has said—and they are for multitude as the stars of the heavens or the sand upon the seashore—his repiy to Mark Hanna's challenge for a debate is one of the very brightest. He said: "I am unwilling to debate with any one whose responsibilities are not so great as my own. If I am elected, I will be president. Now, if the Republican committee will certify that in the event of Mr. McKinley's election Senator Hanna is to be president, I will cheerfully debate with him."

Now, this is not only terse, straight from the shoulder and full of wisdom, but it also contains a great deal of humor, a quality in which Bryan has been supposed to be rather deficient. A home thrust was made at Mark and Mack in such a neat and polite manner that no one can take exceptions to it—not even the victims themselves—though every one understands perfectly well what he meant. It would be worth a good deal to know exactly what Mark thought of that when he read it and whether he didn't wish that he hadn't issued his defiance to Bryan.

Mark's predicament reminds me of what one of my newspaper constituents, Harry C. Turner, once said:

"I never attempt to say anything 'smart' to the other fellow without first pausing and asking myself what he might say by way of retort."

This met by Mr. Turner I regard as very fine and philosophic, and while I am not Mark's spiritual, political or legal adviser I cheerfully commend it to his consideration.

Score Is No Come On.

A recent issue of the Washington Post contained this editorial squib:

We sincerely hope that no unfeeling artist will unload a batch of green goods upon the Hon. Bill Joel Stone while he is in New York trying to watch the Platt machine.

Evidently the gentleman who wrote that squib has no intimate personal acquaintance with the Hon. William Joel Stone and has only regarded him at long range. I violate no confidence whatever when I state that the Hon William Joel is like Major Joe Bagstock—"sly, sir, devilish sly"—and if any New York artist undertakes to unload green goods on William Joel Missourians without regard to race, condition or previous condition are willing to bet their sesterces upon the proposition that the green goods artist will get the worst of it. We don't like to have our great Missouri Democrat sneered at in any such manner by the Washington Post or any one else and resent it as an insult to the Democracy of Missouri. Governor Stone is engaged in the great work of harmonizing the New York Democrats, who appear to have been crossed with the Kilkenny cats at an early day. The job that he has undertaken is on a par with the twelve labors of Hercules. If William Joel succeeds in this monumental task, he will deserve well of his country.

If Hanna wants convincing proof of the falsity of his assertion, "There is not a Trust in the United States," he needs only to run through the checks that he gets to pay campaign expenses.

Anent the much vaunted "prosperity" of the present day, it is well to note that the year book of the Department of Agricultural for 1899, which has recently been issued, shows that the farm products and farm animals in 1899, altho increased in quantity since 1890, had fallen off in value to the extent of $706,969,971. This only counts as farm products, corn, wheat, oats, barley, rye, buckwheat, potatoes, hay and cotton. If the farm products in 1899 had brot the same prices as did the same products in 1890, they would have brot more than they did by more than two billion of dollars. As a Democratic journal we are perfectly willing to draw the dividing line on prosperity. If only those who are extra-prosperous vote for McKinley, Bryan's election is more than assured.

The modern Republicans never meet a question fairly, but prefer to dodge the issue. In 1896 they claimed that silver was not the issue but that tariff was. They said the Republicans were not for the gold standard. They always do just exactly what they say they wont do. They riveted the gold standard upon the country for four years. And now after declaring for four years that silver was dead, the Hannaites now say that silver is an issue, hoping to cover up their imperial plot to destroy the Republic. McKinley always does just what he says he wont do, for instance "Our plain duty" message." The Republicans say there is no such thing as Trusts and Imperialism. This means that there is such a thing and that they will favor such a policy. Will the people vote to put such palpable hypocrites in power?

Why the Laborer Should Vote for Bryan.

The laborer should vote for Bryan because he stands on a platform which promises Labor representation in the Cabinet. When President Bryan calls into consultation his Cabinet he will ask the advice of the Secretary of Labor as well as the other secretaries. The awful strike situation in the coal region of Pennsylvania will never happen again if Bryan wins this time. Arbitration will control, and the few magnets will not own the earth and the fullness thereof. Wise legislation initiated and passed by Democrats will compel the trusts to content themselves with a fair return for capital invested, and the excess will go to the benefit of the wage workers.

Excessive Trust prices will be reduced, and the wages of the laborer will materially increase his standard of comfort. Better wages, fewer working hours, fair prices for life's necessities and a just consideration of him as a man and not as a machine will induce the American laborer to vote for Bryan. The wage worker in California, above all, should vote for Bryan, because he needs protection from Oriental labor competition, which the Republican party proposes to thrust on him.

Why the Farmer Should Vote for Bryan.

Above all things the man who owns a farm should vote for Bryan. Democratic success means just legislation on trusts and property for all, not the few. The prices the farmer gets for his products have increased 14 per cent. since McKinley went into office, but the prices of the things the farmer must buy have made an average increase of 85 per cent. Compared with the prices of what he must buy the farmer has suffered a decrease in the price of the things he must sell.

It requires 50 per cent. more wheat to buy a stove than it did in 1896.

It requires 20 bushels more corn to buy a wagon than it did in 1896.

It requires 100 per cent. more corn or wheat to buy a copper kettle than in 1896.

It requires twice as much corn to buy a coil of rope as in 1896.

It requires 40 per cent. more grain to buy a plow than in 1896.

It requires 75 per cent more grain to buy a hoe, a rake or a shovel than in 1896.

A set of common wheels that cost $7 in 1896 now cost $12.

The price of cultivators and other farm implements has gone up proportionately.

Galvanized barbed wire costs from $4 to $4.40 more than in 1896.

It requires 40 per cent. more corn or cotton to buy a pound of sugar than in 1896.

You have to pay 40 per cent. more for glass than in 1896.

Freight rates have climbed back to the exorbitant prices which caused a popular revolt in legislation a few years ago.

The prices of oil, coal, lumber, tools and hardware have gone up from 40 to 100 per cent.

And all these things have been done by the Trusts.

A TRUST ROBS YOU WAKING OR SLEEPING, EATING OR DRINKING, WORKING OR PLAYING, LIVING OR DYING, AND THE COFFIN TRUST GETS YOU IN THE END.

Why Young Men Should Support Bryan.

The inevitable effect of the Trust combination is to destroy the effect of individual effort. It is almost impossible for a young man, no matter what his training and natural ability, to establish a business of his own to which he can look with reasonable confidence for support and independence. The Trusts freeze him out in business and the best he can hope for is to live his life thru as an employee of some Trust, giving to the monopoly the best efforts of his prime with no promise of proportionate benefit to himself in old age. The yoke of servitude is placed on the necks of the young men of America by these evil combines, never to be removed until they are thrown out of employment as too old to be worth even the poorest pittance of wage. The life clerkships, which are the best things possible under the Trust system, are abhorrent to the minds of the young men of this country. Will they ally themselves with the party of Trusts? Not if they understand the situation. The hope of the Republic is in our young men. We are at the parting of the ways. This government has already given to R. R. Syndicates 197,000,000 acres of land, while the humblest citizen pays the government in hard earned cash for his land. The condition of our public domain is critical indeed. Over 50,000,000 acres of land in the U. S. are now in the hands of foreigners and foreign syndicates—men that spend their time and profits in the fashionable capitals of Europe, men that have no regard whatever for American institutions, men that are stealing the birthright of our boys.

Is this justice to the American people or the American government? The young men must, by their votes, down the Trusts and make an opportunity for themselves by voting for Bryan.

The Republican Platform.

An Arkansas editor, after having read the Philadelphia platform, summarizes it as follows:

"We, the United States of the Republican party, assembled under me and Mark, do hereby congratulate the Lord that he has us to run the universe while he takes a rest. We have given rain to the Democracy, which was really a waste of water on them, as they don't appreciate it. We have made the sun to shine and caused the potato crop to shoot heavily. We rejoice in numerous cases of twins and point with pride to more triplets than the land enjoyed under Cleveland. We have almost stopped the botts and have sold most of our glanders to England.

"We have had a full moon nearly every night, and we especially congratulate the country on the state of the dog tax.

"We have stopped Spain from stealing in Cuba, and can now thank God that our own people are getting the swag.

"We are now returning the bouquets Porto Rico gave us in the shape of a few that will make their people long to be in heaven, which is a state of mind that we want to inculcate in all our neighbors. We are keeping a harem now, and the only cause of regret is that it is a long way off, to make it a really profitable investment; but with our re-election we calculate to plant a few harems in the United States. We are told they will grow in our soil. We have potted a great many brown men in the Philippines. In fact, the pot is nearly full. We are preparing to reap a harvest of pig-tails in the Celestial Land of tea, rice and rats. We own the earth, and would like it better if Bryan was dead and the Democracy burned up. We point with pride to the fat, oily condition of the national banks. We rejoice to be able to inform the people that Mark Hanna has the Trusts in his pocket, or he is in their pocket, it doesn't make any difference. We will take care of Trusts. We have made arrangements to prevent potato rot, and kill cabbage worms, and have it rain at the end of each dry spell. With us the country is safe; without us is eternal chaos and death and Democracy. Therefore vote the Republican ticket.

The present Board of Supervisors deserve great credit for the splendid condition of our roads. The roads have never been in as good a condition as they are to-day, and under the democratic plan of permanent improvement the people will get still better service in the future. There is no question about the fitness of the democratic candidates. They have been tried and found faithful. Reelect them and show the people that an honest official will be rewarded.

WILLIE AND HIS PAPA.

"Yes, Willie, nursie has to suppress Teddy when his rich uncle is visiting us. He says too many foolish things."—New York Evening Journal.

The Republican candidates for Supervisor seem to think that the only duty of a Supervisor is to see how many men he can give jobs to, and as a consequence almost every man in the county has been promised road work. A Supervisor should be a broader man than that; he is the servant of the people, and the voters should not support the man that promises the most jobs, but the one who can and has given the whole people the best service.

If the laws of the State in reference to the duties of Supervisors are not satisfactory to the people that is no reason for kicking at the Democratic candidates for Supervisor. These laws are framed by the State legislature, the Supervisors having nothing whatever to do with it. The board have performed their duties as best they could under existing laws. In fact no one could have done better, and there is every reason why the present board should be re-elected. They have everything in tip top condition and can do still better in the future.

Mark Hanna said the other day, in a speech to the business men of Chicago, "I believe there is not a single Trust in the entire United States." Governor Mount of Indiana, when asked what he thot of this remark, replied: "I regard it as the most unfortunate declaration of the campaign;" and in a speech at Peru he said: "There ARE Trusts in Indiana." Why was Hanna's assertion unfortunate from the Republican campaign standpoint? Because it is virtually a declaration, on the part of the highest authority in the Republican party, that in the event of Hannaite success, no measure will be taken to suppress or discountenance Trusts.

Our Hannaite contemporary down the street said last week that the DISPATCH never treated a political opponent honestly, intelligently, or gentlemanly. The trouble with our a "boozed" friend is that he looks at everybody thru green goggles and with that self imposed right of littleness, meanness and self abasement that fittingly falls upon one of his mental caliber; he therefore thinks that if a man doesn't get gloriously hilarious every day he is no gentleman, that if he doesn't follow the example of the Press and lie in every issue of the paper he isn't honest, and if he doesn't "flop" on all sides of every question during the campaign he isn't intelligent. Surely "booze" has destroyed Alf's mental acumen and it will not be long till his friends will sing the sad refrain "He's in the Asylum Now."

Constable Redwine brot down a prisoner from Covelo yesterday, whom Judge Cummins had committed to jail for 60 days.

The Brass Trust, capitalized at $30,000,000 is said to have collapsed, owing to internal dissensions and the acts of an inside clique. When thieves fall out honest men may get their dues.

The Cleveland-Ohio, *Wachter und Auzeiger* a German-American paper, says: "The American voter must show first of all that the American people are more honorable than their Administration, by electing a man who will do justice to the people freed from Spanish rule.

Finding the record and character of Wm. J. Bryan to be invulnerable, Hanna and his willing servants are now making their principal fight against Mr. Croker of New York. Croker is not running for office, and is in every sense a local politician, confining his work and aims within his own state. Croker is evidently crippling Hanna in New York, or such a general squeal would not be going up all over the country.

Republican definition of a demagogue—A man that has the stamina to say that the wealthy should have no more rights than the poor. One that goes forth proclaiming equal rights to all and special privileges to none; one that says the Declaration of Independence is as binding upon us to-day as it was upon those heroes who fell at Bunker Hill.

The campaign is on. Look out for the rash sayings of the mental monstrosity down the street for Alf is tuning up his lyre and has begun to sing his old song—"I'm a natural born liar—and that's no lie."

CONSUMPTION

Do not think for a single moment that consumption will ever strike you a sudden blow. It does not come that way.

It creeps its way along.

First you think it is a little cold, nothing but a little hacking cough; then a little loss in weight; then a harder cough; then the fever and the night sweats.

Better stop the disease while it is yet creeping. Better cure your cough today.

You can do it with

Ayer's Cherry Pectoral

The pressure on the chest is lifted, that feeling of suffocation is removed, and you are cured. You can stop that little cold with a 25 cent bottle; harder coughs will need a 50 cent size; if it's on the lungs the one dollar size will be most economical.

"I confidently recommend Ayer's Cherry Pecteral to all my patrons. I am using it now in my own family. Forty years ago I feel sure it saved my life." A. S. EDSON, M. D., Jan. 4, 1898. Fort Madison, Iowa.

What Is It?

A man who has been running a race with steam and electricity for years, finds himself suddenly stopped. It seems as if a cold hand clutched his heart. His brain whirls; he can hardly see. "What is it?" he asks himself as the attack passes. If his question meets a right answer, he'll be told that his seizure is a warning to pay more attention to his stomach, which is already deranged by irregular meals and rich foods.

Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and organs of digestion and nutrition. It eliminates from the blood disease breeding poisons. It makes the blood rich and pure, and furnishes a foundation for sound, physical health.

"About ten years ago I began to have trouble with my stomach," writes Mr. Wm. Connolly, of 535 Walnut Street, Lorain, Ohio. "It got so bad that I had to lay off quite often—two and three days in a week. I have been treated by the best doctors in this city, but got no help. Some said I had cancer of the stomach, others catarrh, others dyspepsia. Then I wrote to you for advice. You advised the use of your 'Golden Medical Discovery' and 'Pleasant Pellets.' These medicines I have taken as directed. I commenced to get better from the start, and have not lost a day this summer on account of my stomach. I feel tip-top, and better than I have for ten years."

Keep the bowels healthy by using Dr. Pierce's Pellets. They don't gripe.

Personal Notes and News in General as Chronicled by Our Reporters.

BOONVILLE, Sept. 25, 1900.

The democratic campaign was opened here last Saturday evening by the Hon. J. C. Ruddock and J. H. Seawell, who addressed a large audience in Irish's hall. From the applause and enthusiasm which was manifested, it was evident that the speakers had the sympathy of most of their hearers. E. M. Duff first called the attention of the people and introduced the chairman, Prof. McGough, Jr. The latter, in a few well chosen words, introduced the speakers of the evening who held the close attention of their audience thruout the evening. Mr. Seawell dwelt chiefly on imperialism, but J. C., as he said, just hit the high places and gave us some good logical arguments on all the issues of the campaign.

Sam Duncan, the popular supervisor of this district, is looking after his political fences in this section this week. Sam has made us a good, concientious supervisor and the people on this side will give him a good rousing majority over the Press Gang's muzzle loading politician.

It seems as if the "chemisal politician," in his effort to do something, had done us out of the railroad completely; still they tell us the family has always worked for the best interests of the district. Well, we think "nit."

Robert Henry Rawles, the Press gang's candidate for supervisor, has gone to Ukiah to get Alfred to give him some answers to the questions put to him by the voters here. Robert H. needs no introduction to the people in this district; in fact we might say he is too well known. For this reason we predict some heavy frosts in November. A.

YORKVILLE NEWS.

YORKVILLE, October 7.

As Yorkville has not been heard from for some time, I shall attempt to send in a few lines, tho articles of interest are very rare.

There has been a great deal of sickness here. In fact nearly every one has had his or her turn, but since the rain they are all getting better and now they sit basking in the sunshine.

Sheep shearing is over in this burg and now plowing is in progress.

Miss Rosa Ledford returned from Lowery's Saturday. Her many friends were glad to see her merry face again, but sorry that she is to remain with them only a few days.

Mr. Frank McAbee, of San Francisco, is the guest of B. J. Adams at present.

Miss Mabel Hale, who has been visiting below since July, returned to her home last week. Now someone else smiles.

Miss Inez Ornbaun is visiting friends in Ukiah this week.

Miss Allie Nobles, of Cloverdale, is home now on a visit to her parents, Mr. and Mrs. Yell Nobles.

Miss Owens returned from the city last week and will resume her place in our school again Monday. Miss O. has been on the sick list for some time and as yet is not as well as we hoped she would be upon her return. Miss Belva Hiatt, one of Miss O.'s pupils, substituted during her, absence.

Miss T. Dougherty, of Ornbaun school, has been visiting Miss Owens since Friday. NANCY.

YORKVILLE, October 9.

Miss Vina Campbell has returned to Cloverdale after a pleasant visit with relatives and friends.

Dr. Thomson paid our city an official visit this week. Dr. is a strong Duncan supporter.

Mrs. E. M. Hiatt is very seriously ill.

Mrs. M. M. Ledford has returned from Big Valley after an absence of two months. Her health is much improved.

Our popular Supervisor Sam Duncan was in our midst last week. Sam is gaining votes all the time. He should receive a big majority this fall. When Sam went into office his district was in debt. He now has it out of debt; and is now in a position to make good and permanent improvements. Give him a show; he is honest and conscientious, and a safe man to tie to. Sam's opponent, Bob Rawles, seems to be a pretty nice fellow, but the people here are under the impression that if he should be elected, his brother, "Uncle" Tom will be the man in action, and they think that four years of "Rawlesism" is too much for the indulgent public to stand. "Prunes."

The crop of prunes this year was large,
But tho to handle them we charge,
And for this reason you see why
The owner cannot fly too high
With air castles that he'll get rich
And seem to Vanderbilt to hitch.

To start in with, the prunes must fall,
And then be gathered by us all,
And every man must keep his count
To what his boxes do amoont,
And then be paid accordingly;
This, all of us are sure to see.

The next time o'er the field they go,
They shake the trees each man his row,
The shaking of the trees is last
And then one look o'er field is cast
When left the trees do seem to say,
"Come back, kind friends, another day."

When all the prunes are gathered in
We rush the dippers thru the swim,
The first dipper contains something
That tends to crack the colored skin.
The next one that they all pass thru
Removes the dirt, but not the hue.

When all have once the dippers passed
They're laid in sun to be o'er cast
By the strong rays of burning sun,
And lay there till entirely done,
And then the work to us does raise,
To empty all the leading trays.

A dozen trays can almost fill
Seven boxes up to the cill,
But then the end ones, you can see,
Will need almost an extra three;
We pile the empty trays all down
To let them rest upon the ground.

Now comes the work, last, tho not least,
Of laying all the trays to rest,
We pile them up some eighty high
And then they seem to meet the sky.
When all of them we have laid down
We wire them tightly all around.

Writ Against Attorney General.

In the Superior Court Tuesday morning, McGarvey & Bledsoe presented the petition of James Kenny, asking the Court to order a Writ of Mandate to issue against Attorney General Ford. The petition stated that Mr. Kenny had twice demanded of the Attorney General, the commencement of a suit to dissolve the Bank of Mendocino but Mr. Ford had each time refused. Judge Crump of Lake county heard the petition and ordered the writ issued, commanding the Attorney General to commence the suit to dissolve said Bank, or appear in the court here on Wednesday, October 31st, and show cause why he should not be compelled to bring said suit.

Resolved, That we tender our heartfelt sympathy to her sorrowing husband and friends. Be it further
